SEC. 2. That after the thirtieth day of June, 1872, it shall be the duty of each head of an executive department of the government, and of all other public officers who have heretofore had printing and binding done at the Congressional Printing Office for the use of their respective departments or public offices, to include in their annual estimates for appropriations for the next fiscal year such sum or sums as may to them seem necessary "for printing and binding, to be executed under the direction of the Congressional Printer."

SEC. 3. That it shall be the duty of the Congressional Printer, when Congress shall have made an appropriation for any department or public office, to be expended "for printing and binding, to be executed under the direction of the Congressional Printer," to cause an account to be opened with each of the departments or public offices, on which he shall charge for all printing and binding ordered by the heads of said departments or public offices, in accordance with the schedule of prices established in accordance with law, and it shall not be lawful for him to cause to be executed any printing or binding the value whereof shall exceed the amount appropriated for such purpose.

SEC. 4. That all acts and parts of acts prescribing and limiting the number of congressional documents to be printed for the use of any head of Department or public office are hereby repealed.

SEC. 5. That all proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, shall hereafter be deposited and covered into the treasury as miscellaneous receipts, on account of "proceeds of government property," and shall not be withdrawn or applied except in consequence of a subsequent appropriation made by law; and a detailed statement of all such proceeds of sales shall be included in the appendix to the book of estimates.

SEC. 6. That the public grounds surrounding the Capitol shall be enlarged, buildings of the Senate and House of Representatives, respectively, by extension between First street east and First street west, in the following manner: northwardly to the south side of North B street, and southwardly to the north side of South B street including, in addition to so much of the reservations, avenues, and streets as are necessary for such extension, the two squares designated on the plan of the city of Washington as numbers 687 and 688, respectively.

SEC. 7. That it shall be the duty of the Secretary of the Interior to purchase, from the owner or owners thereof, at such price, not exceeding its actual cash value, as may be mutually agreed on between the Secretary and such owner or owners, and not exceeding the appraisement made by the commission of nine in their report to [illegible] United States district attorney for the District of Columbia on the 21st day of January, 18[illegible], such private property as may be necessary for carrying this act into effect, the value of the property so purchased to be paid to the owner or owners thereof, out of any money in the treasury not otherwise appropriated, upon the requisition of the Secretary.

Gen. No. 56—3

SEC. 8. That if the Secretary of the Interior shall not be able to agree with the owner or owners of any private property needed for the purposes of this act upon the price to be paid therefor, or if for any other cause he shall be unable to obtain the title to any such property by mutual agreement with the owner or owners thereof, it shall be his duty to make application to the supreme court of the District of Columbia, which court is hereby authorized and required, upon such application, in such mode, and under such rules and regulations as it may adopt, to make a just and equitable appraisement of the cash value of the several interests of each and every owner of the real estate and improvements thereon necessary to be taken for the public use in accordance with the provisions of this act, and to which the Secretary has been unable to obtain the title by mutual agreement with the owner or owners thereof.

SEC. 9. That the fee simple of all premises so appropriated to public use, of which an appraisement shall have been made under the order and direction of said court, shall, upon payment to the owner or owners, respectively, of the appraised value, or in any case the said owner or owners refuse or neglect for fifteen days after the appraisement of the cash value of said lands and improvements by said court to demand the same from the Secretary of the Interior, upon depositing the said appraised value in the said court to the credit of such owner or owners, respectively, be vested in the United States. And the Secretary of the Interior is hereby authorized and required to pay to the several owner or owners, respectively, the appraised value of the several premises as specified in the appraisement of said court, or pay into court by deposit, as hereinbefore provided, the said appraised values; and the sum necessary, not exceeding four hundred thousand dollars, for such purpose is hereby appropriated out of any moneys in the treasury not otherwise appropriated.

SEC. 10. That said court may direct the time and manner in which possession of the property condemned shall be taken or delivered, and may, if necessary, enforce any order or issue any process for giving possession.

SEC. 11. That no delay in making an assessment of compensation, or in taking possession, shall be occasioned by any doubt which may arise as to the ownership of the property, or any part thereof, or as to the interests of the respective owners, but in such cases the court shall require a deposit of the money allowed as compensation for the whole property or the part in dispute.

SEC. 12. That the Washington and Georgetown Railroad Company and the Metropolitan Railroad Company, be, and are hereby, required to remove their tracks, respectively, from the Capitol grounds, as hereby established, and [illegible] the same as they may be directed from time to time by the officer in charge of the public buildings and grounds, as the grading and filling up of said grounds may render necessary. That a commission, consisting of the Secretary of the Interior, the Chief Engineer of the army, and the officer in charge of public buildings and grounds, is hereby authorized and directed to examine and report to Congress, prior to the second Monday of December next, a plan by which the locomotive railroad track in front of the western entrance of the Capitol shall be removed, with due regard to the rights of all parties concerned, and by which proper connections with other railroads may be made.

SEC. 13. That from and after the first day of July, eighteen hundred and seventy two, the annual salaries of the Second Comptroller, of the Register, and of the Supervising Architect of the Treasury Department, shall be four thousand dollars each; and the annual salary of the judges of the Court of Claims shall be four thousand five hundred dollars each, and a sufficient sum to carry into effect the provisions of this section to the end of the fiscal year ending June thirtieth, eighteen hundred and seventy three, is hereby appropriated.

Approved, May 8, 1872.

BLAINE'S DINNER PARTY.

It is with sincere pleasure we inform our readers that the story of Speaker Blaine's Sunday dinner party is without foundation. It originated in a Democratic Sunday paper published in Washington, D. C., by Don Piatt, of Ohio, who rarely issues a paper in which the President, or members of the Cabinet, or other public officers, is not attacked, abused, or misrepresented. After the Sunday dinner story had time to be copied and circulated over the Union, Don Piatt, in his own paper, made the following retraction:

> "CORRECTION.—In our last issue we spoke of a dinner party being given by Speaker Blaine on Sunday, at which the President, Cabinet, and other distinguished guests were present. We cheerfully state that we were in error. The dinner referred to was in honor of Minister Washburne, and was on Saturday and not on Sunday. Any paper that may have copied our previous item will favor us by noting this correction as a matter of justice to the Speaker."

We hope the Republican press generally will do Mr. Blaine the justice to contradict this false story of the opposition, started, no doubt, not only to injure him personally, but to bring the Republican party into disrepute.

HON. JOHN SCOTT.

As we stated a few weeks ago, this gentleman has been named in connection with a seat in the Cabinet with President Grant, by many of the papers and people of our State, and all agree, that he would make an able and faithful Cabinet minister, and one that would reflect honor on the administration. But, while he fully appreciates the kindness of his friends, who have made the suggestion, in various quarters, he is not at all desirous to be transferred from the Senate to the Cabinet, but prefers his service in the Senate during the term for which he has been elected. Although his friends will regret this decision, yet all will admit that his place in the Senate would be hard to fill by another of equal talent and capability.—*Hollidaysburg Register.*

A TRIAL OF 50 YEARS.

The *New York Observer* has passed through the ordeal, and starts out anew on the second fifty years with a larger list of readers and more numerous friends than ever. Such a steady course of prosperity is unexampled, and inspires confidence. We heartily rejoice in the great success of a paper which has always advocated those sound principles that underlie the foundations of society and good government. Orthodox in the truest sense, both in Church and State, its influence is always good. We see its publishers propose to give to every subscriber for 1873 an appropriately embellished *Jubilee Year-Book.* Those who subscribe will have no cause to regret the step. $3 a year. Sidney E. Morse & Co., 37 Park Row, New York.

☞ On the 24th ult., a horrible railroad accident, from the effects of a broken wheel, which precipitated the cars down a forty feet trestle, on the Buffalo, Corry & Pittsburg Railroad, occurred at Prospect, N. Y. Eighteen or twenty persons were roasted and crushed to death. At least thirty were wounded.

☞ Terrible fires have occurred in New York city within the last fortnight. Barnum's Museum, with all its numerous curiosities and animals, save an elephant or two, with other valuable property, aggregating over a million of dollars was destroyed.

☞ The *Tribune* difficulty has been settled. Mr. Whitelaw Reid has purchased a controlling interest and the paper will carry out the designs of its founder in the future. We are happy to hear this. We want the *Tribune* to be as free as air.

☞ Mr. Speer, in his speech on the military homestead bill, paid quite a compliment to the "unlettered" privates of the army. It is probable that the privates have quite as much to boast of in the way of letters as their officers or patronizing members of Congress.—*Patriot.*

☞ Hon. John Scott will please accept our thanks for several public documents that are invaluable to the printer.

OUR OWN STATE AND ITS IRON WEALTH.

It is a significant and a well authenticated fact that Pennsylvania is to-day making, from native ore, more iron than is produced by the combined furnaces of England and the continent of Europe! Pennsylvania is monarch of the world in this branch of industry, and when we take into account the inexhaustible supply of the essentials, ore, coal and limestone, and their close proximity to each other, and couple these facilities with the enterprise of our people, it is reasonable to predict that we shall, for generations, if not for centuries to come, continue in advance of all other States and even Nations in the production of this indispensible article in the progress of the arts and commerce. Our wealth in iron cannot be counted, not even estimated. It is almost boundless. Go through the county of Huntingdon, pass through the hills of Central and the Valley of Eastern Pennsylvania and every where these great belts of iron ore, coal and limestone abound. Everywhere on the mountain sides and in the valleys furnaces are in full blasts. Others are being erected, and capital is eagerly seeking investment in those profitable enterprises Railroads are pushed into the interior among the furnaces and the transportation of pigs and blooms afford them busy and remunerative employment. Lehigh Valley is producing immense supplies, while the Schuylkill and Lebanon Valleys vie in the competition, and the whole country around is covered with furnaces and forges blowing and roaring, smelting and moulding pig iron night and day.

So wonderfully has the amount of the product increased that to-day our supply is nearly double what it was a year ago, and is daily increasing. Yet the supply is scarcely equal to the demand. Hitherto the United States depended upon England for a large portion of the yearly consumption of iron. Now Pennsylvania is supplying the United States markets, and *England has ceased to ship iron to this country.* And not only this, America is now shipping iron to England and has made it a profitable market for our surplus product. England's supply of native ore is nearly exhausted, while our treasures in that line have only just began to be unlocked and drawn from their native beds. England is now receiving most of its ore from Spain. Her coal supply too is decreasing, while the article is risen in prices until "carrying coal to Newcastle" has become a paying business, and the supply now going from this country is quite large.

These astounding facts must, at no distant day, change the whole current of commerce. England's day for building iron ships, at paying rates, is passing away, while ours is just commencing. Pig iron can now be, and is produced in Pennsylvania at a first cost of from $13 to $17 per ton, according to location and facilities for operating the furnaces; yet the great demand keeps the prices up and the profits are large. But the rapidity with which the supply is increasing, through the large increase of capital and enterprise drawn into the business, will eventually bring the cost within limits that will make the construction of iron ships one of our most profitable branches of industry. Add to this the improvements now being introduced in the construction of iron ships in this country over those built abroad, and we have a guarantee that, in a very few years, the United States will be the most extensive iron ship-building country in the world.

Protection has done more for our iron interests than its most sanguine advocates ever dreamed of; and if for nothing else the late Horace Greeley, in his able and persistant efforts to enlighten the people on this important economy, will ever be held as a public benefactor.

COUNTY COMMISSIONERS.

J. R. Durborrow of the *Huntingdon Journal,* last week, gave the Commissioners of Huntingdon County a sharp talk on their miserly and outrageous conduct in regard to the county printing. The commissioners gave him their work knowing his prices and when he presented his bill they offered him one-third. As a matter of course he refused this pittance, which would not pay his journeyman for setting the advertisements, and sued the commissioners. We pity the county that has such a set of skin-flints for commissioners. We wonder how many of them, if they had sold their wheat at the regular price, would like to accept one third that price as pay, from the purchaser several months afterward? Yet this is just what they asked the editor of the *Journal* to accept. Huntingdon never had a respectable paper until Mr. Durborrow took hold of the *Journal* and enlarged it and improved it and made it such a county paper as no county in the state need be ashamed of. Printers are poor enough and work hard enough for a scanty living and ought not to be asked to do county work for half its cost. If Huntingdon is too poor or too miserly to pay her printers the same rates for work that private persons pay she don't deserve to have a newspaper of any kind. We don't believe however that the people of Huntingdon county approve of the proceedings of their Commissioners. One thing we are sure of though, and that is that even if they do pay the editor of the *Journal* his full rates for printing, they will never half remunerate him for the good work he has done for the county in elevating and improving the character of its newspapers.—*Bedford Inquirer.*

☞ The trial and conviction of the city editor of the Philadelphia *Press,* for Libel, we believe, will have a beneficial effect. No greater outrage has been perpetrated upon the profession of journalism for years, and the public indignation which has exhibited itself, will no doubt revolutionize the law upon this subject. It is high time.

☞ On Christmas Day a large number of persons attended the Baptist church, at Williamsport. The floor and ceiling gave way and five hundred persons were precipitated into the cellar. Fourteen were killed and forty wounded.

☞ An enabling act has been reported for Colorado Territory. It will, very likely, become a law.

News and Notes from Washington.

Intense Interest in the Postal Telegraph Scheme—Fierce Opposition of the Western Telegraph Union—Adjournment of Congress—News, &c.

WASHINGTON, D. C., Dec. 26, '72.

THE POSTAL TELEGRAPH IN CONGRESS.

The Postmaster General in his Annual Reports for three years past, has taken strong grounds in favor of putting the telegraph wholly under the control of the Government. The leading argument in favor of this measure is that the telegraph would then be operated in the interests of the people, by a reduction of charges to less than half the present average rates, whereas it is now controlled in the interests of Private Corporations and monopolies. The Postmaster General urges the purchase of the present lines if they can be obtained on fair terms; but if not, he then recommends the erection of new lines, which can be done for $12,000,000, making the lines as extensive and more efficient than those now in use. It is generally known that all the principal lines are controlled by the Western Union Telegraph Company, of which the Hon. William Orton, formerly Commissioner of Internal Revenue, is President. Mr. Orton is opposing the Government scheme with all the influence he can bring to bear upon the question. To aid him in opposing the Government plan he has purchased 51 of the 100 shares of New York *Tribune* stock, and Mr. Colfax can become managing editor of that paper on condition that he is willing to oppose the postal telegraph enterprise. He is not ready to do so, nor is it believed that George William Curtis will undertake the editorship on those conditions. But the *Tribune* is out in opposition to the Government plan. It states that the telegraph lines of the country could not be replaced for less than $238,000,000. The highest estimate of cost hitherto was $30,000,000, and responsible contractors stand ready to put up new lines for $10,000,000, with all the equipments of the latest and best type complete.

A NEW POSTAL TELEGRAPH SCHEME.

The plan of the Postmaster General is to put the telegraph wholly under the control of the Government, as fully as the mails are now under that control But the Senate Committee on Post Offices and Post Roads have reported a bill which differs from the Postmaster's plan. A similar bill has been reported to the House, and after the holidays the question will be thoroughly debated and probably, with slight modifications, the bills now before Congress will be made the basis of a law authorizing the new arrangement to be carried into effect. The new postal telegraph bill proposes the organization of a company, (giving the names of the incorporators), to build new lines to be worked in the interests and under the limited control of the Government. By this bill the Postmaster General is required as soon as practicable to establish telegraph offices at all post offices on telegraphic circuits, and at all other post offices within ten miles of any circuit where the salary is not less than $300 per annum, and at such other places as the wants of business may require. The charge for the transmission of telegrams shall be uniform for equal distances, at a rate not exceeding one cent per word for each circuit through which they shall be transmitted, to be compiled as follows: For distances under 500 miles, 250 miles shall be deemed a circuit; for any excess 500 miles shall be deemed a circuit; for night messages 10 0 or less shall be deemed a circuit. All words are to be counted, and no communication shall be transmitted at a rate less than twenty-five cents for each circuit. These rates cover the cost of delivery within a mile of the office, or within the letter-carrier delivery, and of transmission by mail when received at or destined for any place where there is no postal telegraph office; but when the addressee lives more than one mile from the office, or beyond said delivery, each telegram shall be delivered through the usual letter delivery, or by special messenger, upon payment of a just and proper sum, to be fixed by the Postmaster General.

Government Departments and officials to have priority in the transmission of telegrams. All other messages shall be sent in the order of their reception, except night messages. Charges to be prepaid by stamps. The money-order system is to be adapted to the telegraphic. Rates for special dispatches to newspapers, for each one hundred words or less, for each circuit of 500 miles, shall not exceed 75 cents if sent by night, and $1,00 by day; but when copies of the same dispatch are dropped off at one or more offices, the rate at each office shall not exceed 50 cents by night, and 75 cents by day, and at the same rate for each word in excess. Rates for Press Associations are not to exceed those now paid by the Associated or American Press for similar services. A postage of 5 cents shall be paid on each press dispatch. A Fourth Assistant Postmaster General is to be appointed, to exercise a general supervision over the administration of the telegraph.

The Postmaster General is authorized to contract with the Postal Telegraph Company for the transmission of correspondence by telegraph, as his agent, for the term of ten years, according to the provisions of the act; and the company shall have the right to construct lines on all post routes and provide lines of telegraph to every postal telegraph office. In case the company shall fail to perform the service according to the provisions of contract, the Postmaster General may take possession of said lines of telegraph and contract with some other party instead, and charge to said company any loss that may accrue. Fine and imprisonment are to be imposed for violations of confidence or hindrance of transmission.

The capital stock of said Company shall, at its organization consist of 10,000 shares of $100 each, to be paid up in cash, which capital stock may be increased by an amount legal, at its par value, to the cost of lines of telegraph purchased by the Company thereafter, and by amounts equal to the actual cost of such lines as it may from time to time construct. If any telegraph company at actual operation in the date of the enactment of the bill shall within one year offer to sell its corporate property to this company, it shall purchase such property at a valuation to be fixed by five disinterested persons, two to be named by the Postmaster General, two by the seller, and one by the four thus selected. The company is authorized to establish and maintain offices independent of those established by the Postmaster General, and any postmaster may act as operator with the assent of the Postmaster General The Company may also make special contracts with railroad companies, and also with persons or associations for the use of wires for transmission of comercial news, &c. The Government reserves the right to renew the contract, or amend the franchise in case of neglect or failure on the part of the company

The following are named as incorporators of the proposed Postal Telegraph Company: Gardiner G. Hubbard, Franklin Haven and T. Estes Howe, of Massachusetts; S. T. Hersey and R. D. Rice, of Maine; H. C. Murphy, H. O. Reilly, R. A. M'Curdy and Russell Sage, of New York. A. Carnagie, John Rice, David Brooks and Joseph B. Baker, of Pennsylvania; P. N Watson and J. G. Service, of Ohio; William H. English, of Indiana; John T Tracey, of Illinois; R. Blakely, of Minnesota; B. J. Allen and John N. Dervey, of Iowa; William J. Dorons, of Kansas; Robert Hawk, of Nebraska; C. B. Fisk, of Missouri; E. A. Stockdale of Louisiana; Charles Whitney, of Alabama; J. P. King, of Georgia; A. Gage, of South Carolina; H. Wetherbee and George Colton, of California; and Peter Parker, Anthony Pollock, and H. Lathrop, of Washington, D. C.

There is a general impression in the minds of Senators and Members of the House in favor of the plan indicated by the bills now before Congress; but it is believed that it is only the preliminary step towards the Postmaster General's plan of full Government control of the telegraph.

THE WARMOTH NEW ORLEANS DELEGATION

This delegation of thirty-eight prominent New Orleans and Louisiana citizens have been six or eight days in the city. They have presented their statement to the President, who listened attentively, but made no promises farther than that the U S. Court must be sustained in its action. He recommended a congressional committee of investigation, if such a course should be in accordance with the views of congress.

The committee waited upon the judges of the U. S. Supreme Court, in chambers, who listened attentively to their presentation of the controversy, but said nothing as to its merits. The committee met in New York City on Monday and prepared an address to the people of the United States After an interview with the Board of Trade of that city, sub committee were selected to proceed to Boston, Philadelphia and other cities, after which a majority of the delegation will return home, leaving a sub committee in Washington to look after their interests before Congress.

CONGRESS ADJOURNED.

Both branches of Congress adjourned to assemble again on the 6th January 1873. The members generally have returned to their homes.

HON. CHARLES SUMNER'S HEALTH.

Senator Sumner's health is far from good. He looks haggard and care worn. His physicians advise quiet, but he still continues to occupy his seat, daily, in the Senate, while it is session.

FEARFUL CRIMES.

Two horrible murders have been committed this week in Washington. The first resulted from a dispute between two workmen at the gas works. The dispute was between two Irishmen, hitherto fast friends. The quarrel was sudden and unexpected, about some coals that one had carried in for his fires and the other used After some words one raised his shovel and struck the other on his head, killing him instantly. The murderer escaped, and has gone it is believed, to Pittsburgh, Pa.

The other man murdered was an Italian pedler, only 6 months in this country, and was striving to earn money to bring his family to America. His body was found in an open square in a sparsely settled part of the city at 9 o'clock in the evening. It was yet warm. It is known that he had about $200 in his pockets, and this and his pack of goods are missing. He was evidently murdered for his property.

MURDERERS ARRESTED.

The city detectives and police have arrested the murderers of the Italian Jew peddler. He is an athletic colored rough, living in a frame building adjoining the square on which the victim was discovered. The police have also arrested a woman, a boy and a boarder, all colored, living in the same house. The murderer, Tom Wright, denied all knowledge of the deed, asserting that as bad as he was he would neither rob nor murder. But the woman, examined apart from the others, stated that Tom committed the deed when she and the boy and boarder were out, and that when she returned he had stowed the body in a closet and was washing up the bloody floor. It is believed, however, that Tom was not alone in committing the awful deed. The peddler's goods, consisting of laces, shawls, &c., were found wrapped up in a bed sack, and buried three feet under ground in the back shed.

Pittsburgh Correspondence.

PITTSBURGH Dec. 26, 1872.

MR. EDITOR:—We had been promising ourselves a trip over the Pittsburgh, Washington & Baltimore R. R for some time, so after due preparations for a five o'clock (an hour we believe to be highly injurious to health except abed) breakfast, we retired for the night. Being strenghtened by a reasonable slice of steak and a hot cup of coffee we took Wall's Accommodation, No. 1, at Roups for the Union, and thence down Grant street on foot for the P. W. & B. Depot. We left Pittsburgh amid a shower of snow or soot, we were not certain which as the light of day had not sufficiently dawned to fully determine a question of such minute observation. Taking a seat on the river side of the car we patiently awaited the full light of day. Our car was comfortable as most of the cars used by this road, but they are badly in need of cleaning. The windows were so dirty that it was with difficulty we could see through them. Clean up your cars, gentlemen, and you will add greatly to the pleasure of passengers and lose nothing thereby.

Most of the stations along the line of the road are improving, a good sign of the prosperity of the road. One station we especially observed as building up with large brick edifices but did not learn the causes of the stir at Moor's.

On briskly we rolled getting deeper and deeper into the snow storm as we neared the snow bound hills of Somerset. Just here we would remark that the Confluence Park with which you, Mr. Editor, were so much pleased is in a flourishing condition. Some years will have passed before the great expectations of the founders of Turkeyfoot *alias* Confluence, will be realized. Suddenly we find ourselves at Mineral Point and "Change cars to Somerset" greets the cars of the passengers. Here you meet with evidences of the P. R. R Co. for they have kindly leased one of their long since thrown aside cars to S & M. Pt. R. R.—and not enough energy is put forth by the latter road even to repair the broken steps of this disgraceful car. If we remember aright it is No. 6, so it is somewhat antiquated. In justice to this road we would say that it cannot afford to repair this car since they only charge fifty cents for a passage of about six miles, which is nearly as cheap as ordinary hack fare, and about as comfortable when there is no fire, as was the case on the day we had the good fortune to go to Somerset. The conductor is a gentleman—something that cannot be affirmed of all persons in his position. Somerset is rapidly improving and if our good friends are not overdoing the erection of costly buildings we shall indeed feel happy, and the people of Somerset will not regret the destruction of the tumbled down old town. By the way the total destruction of towns seems to be as good a way of enriching the people as any other known to our modern economy. It brings us into prominence before the world, it enlists the sympathies of the charitable and it pays our debts. Success to the town and its kind people. When you go there, kind reader, stop at the Hill house—not the most elegant outwardly, or inwardly either, but Mr. Hill knows how to make you feel comfortable, while Mrs. Hill superintends the culinary department. We wish even yet for a slice of that cold turkey and oyster stuffing.

We returned to the P. W. & B. R. R. on the next morning and was hurried away for Bridgeport Before leaving this road we have only to say that under the superintendency of E. K Hyndman, Esq., the road has been brought from chaos to a complete success, and has taken the position of a first class road Our old friend, Keagy, formerly of the P. R. R, is one of the fine corps of conductors. We congratulate the company, on having so clever a gentleman. We see by the "*Leader*" that he is the most popular of the conductors with the ladies.

At Bridgeport we left the P. W. & B. train, with great reluctance as, we saw our old friends and good fellows (commonly called Odd fellows) from Bedford and Bloody Run board the train bound for Cumberland. The youth and beauty of the town were there. Old Cove Lodge was represented by a nobleman, surnamed, Irvine. The B. & B. R. R. puts on the airs of the P. R. R. but the traveling public will never suspect conductor Buchanan as hailing from the later road.

Miss Anna M. Baker lectured in the National Hall, Mt. Union, on Monday night, December 16th.

The Institute was well attended and was pronounced a success by Deputy Superintendent Houck.

Major Moore, of Petersburg, has killed several deer and has been feasting his neighbors on venison.

The trains on the Penn'a. R. R. have been running promiscuously. There is no counting on them.

An unpleasant predicament—To be ready for a wedding ceremony and the minister fail to come to time.

Edward Cailcote, with appropriate ceremonies, on Sunday last.

The contestants for the watch *watch* you very closely when you go to the Fair. Only 25 cents a vote!

The Misses Steward, of Petersburg, have erected a new portico and painted their house very handsomely.

We wonder whether everybody hates scolding as bad as we do. We would just as soon suffer a bastinade.

The Deputy Superintendent of Common Schools, of this State, was in town, attending the Institute, last week.

Huntingdon county has an intelligent looking corps of male and female teachers as any county in the state.

The severity of the weather has seldom been surpassed in this latitude. See that the poor do not suffer. Help the poor!

On Friday night, a week ago, a new Lodge of Odd Fellows was organized at Shirleysburg. Bro. Corbman was in his glory.

Some of Petersburg's rowdies get drunk and go to church and behave badly. Where do they get their stuff, who can tell?

The winter is very severe on rabbits and other small game. We hope that efforts will be made to preserve these poor creatures.

Prof. Shoemaker, of Philadelphia, lectured on Shakspeare during the Institute, and gave readings. He is a decided favorite here.

J. M. Snowden, Esq., of Petersburg has a hog that measures 7½ feet in length and is over 3 feet high. He will weigh 500 pounds.

Judge Dean is winning golden opinions, throughout Central Pennsylvania, for his impartial, clear and logical exposition of the laws.

The Altoona *Tribune* has no desire to *Hackel* across the bloody chasm any longer, and holds out a flag of truce to the *Register* and *Voice*. Bravo!

The teachers of Huntingdon county are extremely liberal. They always go away making somebody feel happy. This time it is Dr. Greene.

Presumption long drawn out—City dailies asking their country cousins to publish twenty or thirty dollars worth of advertising for an exchange.

If you want the community to support your business you must expect to reciprocate the favor. "One good turn deserves another," you know.

Mr. Roman, the most liberal man in Huntingdon, purchased the bell, on the old Presbyterian Church, and presented it to the Reformed Church.

If you want to get the best of serial literature, cheap, consult our columns. Everybody should take at least one Magazine in addition to a newspaper.

If you desire to insert an advertisement in a newspaper always note the length of time it is to be inserted upon the copy and you will have no difficulty.

A lengthy editorial article, entitled "1872—1873—Review of the Past and Glance at the Future," prepared expressly for this issue, has been crowded out.

M'Pike, the Joshua, commands and his son refuses to stands still on Mount Allegheny. We hope the youngster will not prove as bad a punster as his dad.

Three feet of snow at Johnstown. So says the *Mountain Voice*, and it ought to be able to tell truthfully when the "mountain labors" under a load to this depth.

Mrs DuBois and F. H Masters, of Bloody Run, have been making our friend of the *Press* feel good. He appears to have been at home when fortune knocked.

A brakeman on a H. & B. T. freight train fell through the bridge at Mt. Dallas, caught on a piece of timber ten feet down and saved a ducking and a first class load.

Dr. E. J. Greene was the happy recipient of a splendid Bible, presented by the teachers as a token of their appreciation of the excellent music he furnished the Institute.

A small son of Samuel Barnett was thrown upon the ice, by some of his playmates, at Conpropst's Mills one evening week before last and his leg severely fractured.

Whenever an individual wants advertising for nothing and the printer won't do it he is told it will hurt the paper. There are always two who can work at that game.

It gives us pleasure to notice how our friend T. W. Myton, Esq., takes hold in the Prothonotary's office. He will make a splendid officer. If he only had a respectable place for an office.

The unofficial papers of Mifflintown are very sore because tax-payers do not have to subscribe for all the papers published there to keep the run of the legal business of that county.

A little boy stepped off of the sidewalk and went head over heels into the snow. When he arose he did'nt sing, "The snow; the beautiful snow!" but he cried most pitifully, "The nasty snow!"

He that insists upon the support of his neighbors, and yet when he desires any thing which the neighbors can furnish, goes off to Philadelphia, or elsewhere, to procure it, should be treated similarly.

Our Carrier will call upon our town subscribers with his usual Annual Address this (Wednesday) morning. Don't think of giving him less than you would pay for a year's postage. Give him a quarter!

The weather is bad for the car works, but Supt. Orbison assures us that the company will be able to commence operations by the 15th inst. Mr. Orbison deserves great credit for the rapidity with which he has pushed the construction.

The funeral of Mr. Robert King was appointed for 12 M., sharp on Christmas. The mercury was at 5° above zero. A large number of persons were on the sidewalk to the minute, but the hearse failed to put in an appearance for ten or fifteen minutes later. Such negligence is extremely reprehensible.

We have been in the newspaper business, off and on, almost a quarter of a century, and in all that time we have never found an individual who was not pleased at a little newspaper notoriety, but we doubt very much whether we have found a half a score who were willing to pay without murmuring.

The miners employed at Powell's mines, Moshanon, in Clearfield county, struck for higher wages last week. Other men were procured and a riot occurred in which several men were killed and others wounded. Mr. McHugh, of this place, was at one time reported to be among the number killed but happily it proved to be a false statement. The miners who will strike in the face of a winter like the present, must be bordering on insanity.

SUPPORT YOUR OWN.—We hold it to be the duty as well as the interest of all men in business, to support the business men of the town in which they reside. If you go abroad for dry goods, groceries, boots and shoes, your coal, or any other articles you need, you may expect others, engaged in these particular vocations, to do the same, and trade is thus crippled. Never "go back" on your business men or mechanics.

We cut the above admonition from the *Bedford County Press* because we believe it to be just as applicable to this locality as it is to Bloody Run. We heartily subscribe to the sentiments here expressed and have generally made it a point to practice what we believe to be sound business principles. There are, however, scores of individuals in this county, in the various branches of business, who strenuously insist upon the fulfilment of the precept here laid down to the letter, so far as it relates to their own business, and yet violate the principle, as it refers to others every day of their lives. For instance: How many business men, Merchants, Mechanics, Lawyers, Doctors, Bankers, Contractors, Coal operations, Jobbers, etc., etc., get their printing done in some of the eastern cities, and yet expect us to support their material interests, in many ways, every day of their lives. Their name is Legion. If everybody was to do as they do, run off East and get their supplies, they would sink as flat as a flounder, in a business point of view, in less time than it takes to complete a revolution of Mercury. We are in favor of reciprocation—living and letting live. Those who want home support must reciprocate or they should be pushed out of the community. Yes, sirs, we support our neighbors, and we insist upon a reasonable show of support in turn. We practice what we preach and we want others to do likewise. Support your own business men, and if you do not, the community ought to know it.

E. H. BUTLER & CO.'S NEW AMERICAN SERIES OF COMMON SCHOOL BOOKS.—D. W. Proctor, Esq., connected with the firm of E. H. Butler & Co., of Philadelphia, publishers of the New American Series, will please accept our thanks for a full set of the Series. We have examined the books and find they are certainly as fine specimens of typography as we have seen for many a day. The illustrations are almost equal to steel plates. But it is not only in typography that they excel but in the plan and practical arrangement. The spellers are the best arranged now in use. Each chapter contains practical words belonging to a subject indicated. The Readers contain fresh readable matter selected with great care and taste. The price is astonishingly low—only $2.50 for the five readers. The imprint of E. H. Butler & Co. is a sufficient guarantee that the series is what it claimed for it—"The latest and best published." D. W. Proctor, Esq., Huntingdon, Pa., will furnish circulars, free of charge, on application, and books for introduction at half price.

SUDDEN DEATH OF MR. ROBERT KING.—Since our last issue Mr. Robert King, a prominent citizen of this place, has been cut off in the prime of life. Mr. King arose on Friday morning ult., and while opening the shutters of his tailoring establishment, on Washington street, was attacked by paralysis and fell to the pavement. He was removed immediately afterwards and lingered until Monday morning following when the vital spark went out. He was buried on Christmas by the Masonic fraternity, of which he was a prominent member. He was highly respected and beloved by all who knew him.

A SPLENDID CHRISTMAS TREE.—The members of the Baptist Sabbath School prepared a very handsome Christmas tree for their scholars. It was decorated with every imaginable trinket, toy and many, very many, useful articles. A fish pond was also provided where the little folks tried their luck. It was very pleasing to see the bright eyes and smiling countenances of the little expectants. It was a very creditable affair. Several of the other churches, we learn, had a similar treat for their little folks.

EXTREMELY COLD.—"The night before Christmas" and Christmas morning were extremely cold. At 7 o'clock, a. m. the mercury indicated 14° below Zero at this place, at 9 o'clock 8° below, and at 11 o'clock 1° and at 12 m. o'clock 5° above. Up Traugh Creek, at 4 o'clock, a. m. it indicated 22° below and in Clay twp. 21° below. We do not remember any colder weather in our experience.

HUNTINGDON'S IMPROVEMENT—1872.—As in years past the *Monitor* closes the year with a detailed account of the buildings and improvements erected in the borough during the year. While our local improvements this year, in numbers, do not compare favorably with those of years past, the character of the buildings and improvements have been vastly superior to those erected in former years, and we can safely say those now building will give Huntingdon such a pitch forward as the most extravagant of her ambitious citizens have not even dreamed of. It is confidently predicted that the car works alone will add to our borough, the coming year, a round hundred new buildings. But for the present we prefer to deal with realities, and leave the future to account for itself.

Perhaps it is but proper here to state that in our researches this year we have depended chiefly on the master carpenters, and most probably have not a full report of the buildings erected in the town and its vicinity during the year. Should such be the case we will with pleasure correct any errors we have made if the parties will favor us with the necessary facts. As in former years we commence our report with

ALLEGHENY STREET.—On which John W. Mattern, Esq., repaired and remodeled his residence which has greatly improved the appearance thereof; Adam Smearman also remodeled and improved his building; the Union Depot, a model of its kind, beautifies the south east corner of Fourth and Allegheny; H. Leister erected a large two story frame ware house and S. T. Brown, Esq., built a large frame stable; Jos. Watson, an elegant two story brick stable.

HILL STREET.—The County Commissioners deserve special mention for the erection of an iron bridge over Stone creek; the Gas Company have under construction and about finished, a large gasometer; Easton Blake erected a large frame Foundry; M. B. Massey a large, elegant two story brick residence, with modern conveniences Smiley & Thompson, builders; W. B. Zeigler furnished his handsome three story, mansard roofed residence; J. C. Blair, built a large two story frame business house; H. G. Fisher finished his magnificent three story brick mansard roofed residence; Thos. Carmon erected a two story brick business house—Smiley & Thompson builders; Mrs. Hildebrand built a large brick back building to her residence; G. W. Garrettson has under roof and nearly finished, a model two story brick residence, elegant in all its appointments and appearance; Wm. Long has in course of construction, nearly finished, a large three story business and society house, of which Smiley & Thompson are builders; Alex. Port added a fine two story brick back building to his residence—Bartol & Strickler doing the carpenter work; in West Huntingdon a Mr. Hawn erected a two story frame residence—Isenberg & Heifner doing the carpenter work; The Keystone Manufacturing Co. have added to their factory a splendid three story tannery and currying establishment 120 by 70 feet, containing 36 vats, 8 leaches, 6 limes and a 50 horse power steam engine; Fisher & Sons have erected a large plaster mill, with two water wheels of combined forty-two horse power and a capacity to grind thirty to thirty-five tons of plaster per day.

WASHINGTON STREET.—C. Hawn added a two story back building to his residence—H. Snare, carpenter; F. Hefright built two splendid two story bricks—H. Snare, carpenter; H. Noel built a fine two story brick residence on which Bartol & Strickler did the carpenter work; Bartol & Strickler also built a two story frame house for W. H. Fisher; H. Snare built a two story frame business house for H. Swoop; H. Snare is now finishing an elegant two story brick house for T. Martin; David Mingle has the foundation laid for a large two story frame; the Strickler Brothers are building a two story frame for Dr. Hamlin; Lewis Hefright repaired and remodeled his two story frame dwelling—H. Snare, carpenter; J. G. Zimmerman built a frame meat market for A. Star; Christ Long erected a splendid two story brick dwelling, H. Snare, carpenter. Mr. Long also built a two story frame back building to his residence, on which Smiley & Thompson did the carpenter work; W. K. Burchinell has put up a magnificent two story brick residence, with mansard roof and modern conveniences—Smiley & Thompson carpenters; P. M. Verbeck built a "three horse power" stable; Dr. R. A. Miller erected a neat two story brick dwelling; J. Ronsorene, a two story frame cottage; Fisher & Sons finished a two story log weatherboarded dwelling; N. C. Decker has in course of construction, a large three story brick dwelling house—M'Donald & Son, carpenters; Lewis Irvin put up a large frame kitchen; R. Cozzens weatherboarded his residence and built a frame kitchen—J. G. Zimmerman, carpenter.

MIFFLIN STREET.—Henry & Co. built two splendid two story brick dwellings—both of which are for sale. Heifner & Isenberg did the carpenter work; J. Africa has erected a two story brick residence; W. Africa put up a two story frame back building—H. Snare, carpenter; R. Langdon added a new two story brick to his residence and modernized and introduced all the conveniences throughout both, and now has a magnificent residence—H. Snare, carpenter; G. B. Armitage erected a two story frame business house; S. W. Coder a two story frame store house and warehouse—J. G. Zimmerman, carpenter.

CHURCH STREET.—Bartol & Strickler were occupied the greater part of the summer remodeling the Methodist Church; Joseph Carmon built a two-story frame double house; Samuel Whittaker erected a two-story frame dwelling.

MOORE STREET.—Herman Lawrence built a two story brick house—H. Snare, carpenter; Geo. Warfel erected a two story brick on which Smiley & Thompson did the carpenter work; W. & J. M. Buchanan erected, last year, two two and a half stories cinder dashed dwellings which, being omitted in our last year's report we carry to the credit of the present year; Geo. Snyder added a two story frame back building to his residence—Bartol & Strickler, carpenters; Bartol, Kennedy & Co. built a two story frame dwelling; John Leffert erected a handsome two story brick dwelling on which Wm. Heifner did the carpenter work; G. L. S. Baker put up a large, handsome two story frame residence—Vanzant & Kennedy carpenters; Chas. Estes built three large frame dwellings and a stable; A. M. Hagey, a two story frame dwelling.

ONEIDA STREET.—Wm. Richner erected a two story frame cottage.

SECOND STREET.—Porter Pope built a two story frame dwelling.

FOURTH STREET.—Josiah Cunningham built a two story frame dwelling; W. F. Cunningham repaired and remodeled his residence.

FIFTH STREET.—Jacob Eckert erected a two story frame dwelling.

SIXTH STREET.—Smiley & Thompson built a two story frame dwelling for a Mr. Sugart.

SEVENTH STREET.—J. K. Dick built a two story frame dwelling,—Smiley & Thompson, carpenters; Messrs March & Bro. built a fine two story brick for Henry Strouse, on account of whose death the house is now for sale.

SUBURBS.—In Oneida twp., adjoining town, E. C. Summers finished his large and handsome two story frame dwelling—Smiley & Thompson, carpenters; M. S. Lytle, Esq., also finished his handsome two story brick dwelling in the same locality; in Walker township, also near town, Levi Claubaugh erected a two story frame dwelling; Chas. Sharrar, adjoining the above, built a two story frame residence; in Portstown Chas. Alt erected a large two story frame dwelling.

MANUFACTORIES.—Messrs. Orbison, Welch & Co. are now building of brick the most extensive works that Huntingdon has yet seen. These are known as the Huntingdon Car Works and consist of a building, to be known as the wood work department, 160 by 70 feet; machine and blacksmith shops 172 by 43 feet; an erecting shop 165 by 60 feet; an engine house 25 by 32 feet; a stack 60 feet high, and a number of smaller buildings which, with the necessary yard room will occupy about five acres of ground. The works will be run by a 50 horse engine, and from 200 to 300 men will find work in and around the establishment.

Chas. Alt erected, in Portstown, a large frame blacksmith shop.

We repeat the number of new buildings erected during the year now closing does not compare favorably with the last year's report, yet the character of the buildings erected this year is vastly superior to that of any former period. A large proportion of the houses erected this year are substantial brick structures, many of them models of architecture and conveniences; and the frame structures generally are of the better class, lined with brick, well built, handsome and convenient. On the whole, therefore, we can truthfully assert that Huntingdon has steadily advanced, for three years past, and that her future is bright and promising.

Our star of enterprise is in the ascendent. Let us unfurl the banner "Excelsior" and press forward until the highest pinnacles of fame are ours and our borough is known throughout the globe as a great manufacturing centre, and her people are distinguished for their energy, thrift, charity, hospitality, sociability and piety.—*Monitor*.

SNOW ON THE SIDEWALKS.—*Mr. Editor*:—I feel like scolding. I hear a great deal about the untiring energy and great public spirit of the new cargo of borough fathers. I wish they would *talk* less about water-works and sewers and kindred subjects, and *do* something that would be of immediate advantage to every pedestrian in the town. Why don't they pass an ordinance requiring every owner of a house or lot to clear the snow off the sidewalk in front of his premises as soon as the snowing has ceased? If there is already such an ordinance why is it not enforced? It would be easy to have a force of men to clean off all sidewalks not attended to by owners of property, and then compel the owners to pay for the work in the same manner that they must pay for the making of sidewalks.

Several falls of snow have already occurred during the present winter, and there are dozens of places in the town where it has been allowed to lie until it melted away. On Friday I walked through the town to the car works with a companion and we had to go at least half the way in single file along narrow foot paths beaten in the snow by unhappy foot passengers like ourselves. When there is freezing, after this snow has partially thawed, some one, more unfortunate, will fall on the icy pavement and break a limb; and there will be one more item for the newspapers. When you publish such an item, Mr. Editor, head it "*Crippled by the Confounded Carelessness of the Common Council*;" won't you?

When I am upon the subject let me further call your attention to the condition of the board-walks in West Huntingdon. In many places the boards have been broken, leaving gaps which may cause some ugly falls. In one place on Washington street a rod or more of the walk is gone, leaving but a single board to walk on, and the end of this board rests on a trestle. I am told that the breaks in the boards have been made by cows, in walking along the sidewalk. If the cows cannot be kept off the sidewalks, the town ought to be fenced in, and the cows kept out.

I don't want any body to get hurt, Mr. Editor, but, if it must come, I hope somebody will get hurt soon; and then I hope he or she will bring suit against the borough for heavy damages, and give our young borough fathers something to think about.

The articles are too numerous to specify—we mean to sell everything at low prices for cash ONLY. Call and see for yourself and be satisfied. WM. MARCH & BRO. [dec.18 2t.

MESSRS. MARCH & BRO., would return their thanks to their friends and customers for their patronage during the year now closing, and would respectfully call their attention to the custom of settling all accounts at the end of each year, and that as they contemplate visiting Europe in the early Spring it is of the greatest importance that all book accounts be settled either by cash or note, during the month of January next. They desire to settle all accounts themselves and hope they will not be compelled to leave them for collection, thus adding cost and trouble. [dec.18-2t.

The Executor's of Henry Strouse, dec'd. will offer for sale during January Court, his fine new two story brick house on 7th St., Huntingdon. The house is well finished, supplied with water at the door, gas pipes through the house and all desirable conveniences. The house stands on a half lot of ground adjoining a vacant half lot, which will be offered for sale at the same time. The terms will be very liberal. [dec.18-2t.

FARM FOR SALE.
The undersigned will offer at Private Sale, the farm upon which he now resides, situated in Juniata township, Huntingdon County, on Piny Ridge, about three miles from Huntingdon, containing 240 acres, about one-half cleared and in a good state of cultivation and the balance timbered with Chestnut, Pine and Oak. The improvements are a good log weatherboarded house, a log barn, corncrib and other out buildings. Also a good bearing orchard, and about 100 young apple and about 200 young peach trees, in fine growing order. Also a good supply of cherry and plum trees, a well of good water near the door, also a never failing spring which gives a good supply for the stock.

There is a School House on the Farm. For further particulars, call upon the premises or address the undersigned at Huntingdon, Pa.

A SPLENDID FARM AT NEWTON HAMILTON.
We will sell the magnificent farm adjoining the village of Newton Hamilton, in Mifflin county, containing one hundred and sixty acres of land, one hundred and fifty of which are cleared and in a fine state of cultivation, forty-five acres consist of an island, that never overflows, and which is in the highest state of cultivation. The buildings are a large double-floor bank barn, two good dwelling houses, blacksmith shop, store and spring house. There is an abundance of Limestone on it. There is also great quantities of water, the canal and river passing through it besides a number of excellent springs. Ten acres are covered with good timber. It is the farm adjoining the Camp Ground of the Juniata Valley Camp Meeting Association, and only one-fourth of a mile from the buildings to the railway station. A number of lots would no doubt find ready sale. There's no more desirable property along the line of the railroad. Price, $12,000, a dower of $4,000 to remain in; $2,000 in hand and the balance (6,000) in three equal annual payments with interest, to be secured in the usual manner.

The Power to Seize Property for School Purposes—Important Decision.

Yesterday morning, in the Supreme Court, Judge Agnew delivered the opinion of the court in the case of Francis J. Ferree vs. the School Directors of the Sixth ward, Allegheny, in which the judgment of the court below was affirmed. This was a writ of error to the Court of Common Pleas of this county, and the action was brought to determine whether school directors have the right to enter upon improved property for school purposes. Ferree owned a dwelling house adjoining the school property in the Sixth ward, and the board having failed to negotiate with the owner for it had viewers appointed, and then took possession of it for school purposes. The case was brought in the Court of Common Pleas to recover the property, and a verdict for defendents was rendered. The case was then carried up to the Supreme Court. The opinion of Judge Agnew was as follows:

"In the case of Brocket vs. Ohio and Pennsylvania railroad company, 2nd Harris' 241, it was held that the right of a railroad company to enter upon and appropriate *land* for the use of its road includes the right to remove a dwelling house. The act of the 9th of April, 1867, Purdon by Brightly, 1452, pl. 1, uses the word 'ground' in the first part of the section as synonymous with *land*, the word used in in all other parts of the section; and *such* land and *said* land. To confine the word land or ground to such only as is bare of buildings, would render the act often inoperative in closely built towns and cities, We see no reason, therefore, to exclude from the power of the school directors the authority to enter upon and occupy improved lots. Nor do we think that the ownership by the school district of an adjoining lot, will prevent the directors from taking, in addition thereto, so much ground as is necessary for the eligible sites for school houses referred to in the act; where (as here) both the properties together do not exceed the quantity allowed by the act for such purposes." Judgment affirmed.—*Pittsburgh Gazette.*

WISHART'S PINE TREE TAR CORDIAL.

NATURE'S GREAT REMEDY

FOR THE

THROAT AND LUNGS.

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families Europe, not through the press alone, but by persons throughout the States actually beneffitted and cured at his office. While he publishes less, so say our reporters, he is unable to suphly the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, *which causes irritation.*

Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood.

Third. It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.

NOTICE.

THE PINE TREE TAR CORDIAL,

GREAT AMERICAN DYSPEPSIA PILLS,

WORM SUGAR DROPS

Being under my immediate direction, they shall not lose their curative qualities by the use of cheap and impure articles.

VINEGAR BITTERS——PURELY VEGETABLE—FREE FROM ALCOHOL—

Dr. Walker's California Vinegar Bitters.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means; and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructions of the Stomach, Bad Taste in the Mouth, Billious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lenghthy advertisement.

For Female Complaints, in the young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon preceptible.

For Inflammatory and Chronic Rheumatism and Gout, Billious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Billious Diseases.

For Skin Diseases, Eruptions, Titter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Grateful Thousands proclaim *Vinegar Bitters* the most wonderful Invigorant that ever sustained the sinking system.

Twenty drops in half a tumbler of water will in a few moments cure Cramps, Spams, Sour Stomach, Heartburn, Sick Headache, Diarrhea, Dysentery, Colic, wind in the Bowels, and all Internal Pains.

Travelers should always carry a bottle of RADWAY'S READY RELIEF with them. A few drops in water will prevent sickness or pains from change of water. It is better than French Brandy or Bitters as a stimulant

Fever and Ague.

Fever and ague cured for fifty cents. There is not a remedical agent in this world that will cure Fever and Ague, and all other Malarious, Billious Scarlet Typhoid, Yellow, and other Fevers (aided by RADWAY'S PILLS) so quick as RADWAY'S READY RELIEF. Fifty cents per bottle. Sold by Druggists.

HEALTH! BEAUTY!!

Strong and pure rich blood—increase of flesh and weight—clear skin and beautiful complection secured to all.

DR. RADWAY'S

Sarsaparillian Resolvent has made the most astonishing cures; so quick, so rapid are the changes the body undergoes under the influence of this truly wonderful medicine, that every day an increase in flesh and weight is seen and felt.

The Great Blood Purifier.

Every drop of the Sarsaparillian Resolvent communicates through the Blood, Sweat, Urine and other fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst form of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ring Worm, Salt Rheum. Erysipelas, Ache, Black Spots, Worms in the flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm, and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days' use will prove to any person using it for either of these forms of disease its potent power to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting the wasts, and repairs the same with new material made from healthy blood—and this the sarsaparillian will and does secure.

Not only does the Sarsaparillian Resolvent excel all known remedial agents in the cure of Chronic, Scrofulous Constitutional, and skin diseases; but it is the only positive cure for

Kidney & Bladder Complaints,

Urinary and Womb diseases, Gravel, Diabetes, Dropsy Stoppage of Water, Incontenence of Urine, Bright's Disease, Albuminuria, and in all cases where they are brick-dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is morbid, dark, billious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the back and along the Loins Price, $100.

WORMS.—The only known and sure remedy for *Worms—Pin, Tape &c.*

Tumer of 12 Years' Growth Cured by Radway's Resolvent.

REVERLY, MASS., July 18, 1869.

DR. RADWAY:—I have had Ovarian Tumor in the ovaries and bowels. All the Doctors said "there was no help for it." I tried every thing that was recommended; but nothing helped me. I saw your Resolvent, and thought I would try it; but had no faith in it, because I had suffered for twelve years I took six bottles of the Resolvent, and one box of Radway's Pills and two bottles of your Ready Relief; and there is not a sign of a tumor to be seen or felt, and I feel beter, smarter, and happier than I have for twelve years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish this if you choose.

SURPRISING.

It is really surprising how rapidly

Dr. Wengert's Family Medicines

are becoming popular all over the country. Thousands are daily praising them for their many virtues and say they would not be without them in their families. To you who have never tested them, we would say if you have *Fever and Ague* you cannot do better than use

DR. WENGERT'S

MOUNTAIN HERB BITTERS.

For *Liver Complaints, Scrofulous Affections* and Diseases arising from Impurities of the Blood, use

THE INDIAN VEGETABLE

Restorative and Blood Purifier.

Dr. Wengert's Magic Balm

has no superior for the speedy and effectual cure of *Coughs, Colds, Bronchitis* and Diseases of the Respiratory Organs.

THE SAMSON OIL

need only to be tried to convince the most incredulous that it will cure *Nervous Headache, Cholera Morbus, Colic, Cramps, Sprains, Bruises, &c.*

Dr. Wengert's Hepatica Pills

are an Alternative Cathartic, and can be used for an ordinary Cathartic or Physic, and should always be used in connection with the MOUNTAIN HERB BITTERS in severe cases of Fever and Ague. We know that there is continually being palmed upon the people some *wonderful* preparation that is without merit or virtue, therefore the people lose confidence in preparations that do possess virtue. Yet it would certainly be unwise and unreasonable to condemn all the various remedies offered to the public because some are disgraceful humbugs. All we ask is for you to give

Dr. Wengert's Family Medicines

a fair trial, and if they are not deserving of your praise and confidence, then denounce them in your strongest terms.

Fouse's I. X. L. Horse and Cattle Powders

are considered the best now in use. *TRY THEM*

All of Dr. Wengert's Family Remedies and Fouse's I. X. L. Horse and Cattle Powders, are manufactured by

PATENT

ARION

COMBINES MANNER'S FOUR

SIMPLIFYING PATENTS,

THE MOST VALUABLE PATENTS EVER USED IN PIANO-FORTES.

PATENT ARION.

REVERSED WOODEN AGRAFFE.

THE COMPOUND REST PLANK.

THE FULL IRON FRAME.

AND THE SUSTAINING IRON BAR.

A FEW REASONS

WHY THE

ARION PIANO

IS SUPERIOR TO ALL OTHERS:

The ARION PIANO-FORTE has greater power than any other Piano-Forte manufactured.

It will Stand in Tune Longer,

and in its mechanical construction it is more perfect, and, therefore, more durable, than any instrument constructed in the usual modern style.

The arrangement of the Agraffe, the manner of stringing, the peculiar form and arrangement of the Iron Frame

SUPERCEDES ALL OTHERS.

The use of a bar (which is a part of the Iron Frame on a line with the heavy steel stringing,) gives

GREAT STRENGTH

where most needed, and in this respect all other pianoes fail.

The construction of the WREST PLANK, into which the tuning Pins are inserted, is such that it is impossible for the pins to come loosened, or the Wrest Plank itself to split, as is too often the case in other Piano-Fortes.

The Extraordinary Evenness

throughout the scale, the excellent Singing Quality, the

LENGTH AND PURITY OF VIBRATION,

all go to prove what we claim, viz: that the

ARION PIANO-FORTE

Is the Best Instrument Manufactured,

ALSO

ESTEYS COTTAGE ORGANS,

WITH THE

VOX JUBILANT

AND

VOX HUMANA.

THE NE PLUS ULTRA OF

REED ORGANS,

universally acknowledged to be the BEST Organ made for Sunday Schools, Churches, Parlors and Lodges.

Having more power, with a sweeter tone, than any other Organ in the market notwithstanding the representations of agents interested in the sale of other Organs, *we do fully warrant every Organ for the period of five years, (at our own expense.)* We have no agent in Huntingdon at present, therefore all who may want one of the best Organs extant may receive, by corresponding with us, a price and descriptive list from which a selection may be made, to which we will give our personal attention, and guarantee satisfaction,
